Alumni
Association

Program Description:

These seminars are intensive programs based upon Vernon J. Geberth's personal experience as a New York City Homicide Commander, author, lecturer and consultant in death investigations, extensive research of written materials in the field, and personal interviews and associations with experts in the sphere of forensic science and criminal investigation.

The course of instruction will cover the entire sequence of events which occur in a homicide. The program will then focus on practical tactics, procedures, and forensic techniques which can be employed in sound, efficient and professional homicide investigation.

Objectives: At the conclusion of the seminar, participants will have acquired a greater understanding of their role as homicide investigators and should be able to:

- Follow logical steps in the management of a homicide investigation
- Adequately document a case for future reference or court appearance
- Identify the various types of wounds and injuries which can result in homicide
- Be familiar with homicide cases of a sexual nature
- Recognize the value of psychological profiling in the solving of homicide cases

This program is American Board of Medicolegal Death Investigators certified.
